VISIT OUR
WEBSITE

Hi, friend!

I'm so glad you're here. Cultivating Celebrations was built from my love of making life's moments feel a little more special. From birthdays and baby showers to weddings, business milestones and all the "just because" moments in between, I truly believe there is always something worth celebrating. Around here, balloons are more than just balloons. They're the pop of color that brings a theme to life, the backdrop to a favorite photo, the surprise that makes someone's face light up, and sometimes, the finishing touch that pulls the whole celebration together.

My goal is to make celebrating easy, beautiful and fun. Whether you know exactly what you want or you just have a theme, a color palette and a "Paloma, help!", I've got you! Everything is thoughtfully designed with your celebration in mind.

This catalog is here to help you dream, get inspired and find the perfect pieces for your next celebration. And remember: you don't have to have it all figured out before you reach out. You bring the reason to celebrate. I'll help bring the pop.
